

Resource Guide Spring 2024

Introduction

The Ontario Universities' Guidance Dialogues are perennial events dedicated to delivering admission and recruitment updates between Ontario universities and high school guidance counsellors. University representatives and counsellors alike collaborate at Guidance Dialogues to share feedback, network and engage in topical issues in support of their shared goal to promote high school students' access to Ontario universities.

The Guidance Dialogues Resource Guide is brought to you by the General Committee on Student Recruitment (GCSR) in partnership with the Ontario Universities' Application Centre (OUAC). This Resource Guide was designed at the request of Ontario guidance counsellors and is written for them rather than students. The best resource for your students is Ontario Universities' Info (OUInfo): www.ouinfo.ca.

We hope this guide helps answer your frequently asked questions.

Sincerely,
The GCSR and the OUAC

Introduction

Les Dialogues entre les conseillers et les universités de l'Ontario sont des événements vivaces et consacrés à la mise à jour, par les universités de l'Ontario, des renseignements sur les admissions et le recrutement aux conseillères et conseillers des écoles secondaires. Des représentantes et représentants des universités et des conseillères et conseillers collaborent aux Dialogues dans le but de partager leurs rétroactions, de réseauter et de se pencher sur des questions d'actualité, avec un objectif mutuel de promotion de l'accès aux études universitaires ontariennes par les élèves du niveau secondaire.

Le Guide de ressources, Dialogues vous est présenté par le General Committee on Student Recruitment (GCSR), en partenariat avec le Centre de demande d'admission aux universités de l'Ontario (« OUAC »). Ce Guide de ressources a été conçu à la demande des conseillères et conseillers en orientation de l'Ontario et s'adresse à ces derniers plutôt qu'aux élèves. La meilleure ressource à consulter par les élèves est Info des universités de l'Ontario (Info-UO) : www.ouinfo.ca/fr.

Nous espérons que ce guide aide à répondre à vos questions les plus fréquemment posées.

Cordialement,
Le GCSR et l'OUAC

This program does not lead to an Ontario Certificate of Qualification for the K-12 education Sector.
- Our Bachelor of Engineering in Integrated Engineering combines elements of mechanical, electrical and software engineering to equip students with the skills and knowledge they need to thrive in today's rapidly evolving technological landscape. This program is designed to meet all requirements of the Canadian Engineering Accreditation Board (CEAB) and is expected to receive CEAB accreditation upon graduating the first cohort, comparable to all other new engineering programs.

Program Changes

- Computing and Network Communications is no longer open to new applicants.

New Programs

- The University of Toronto Scarborough (UTSC)'s Health Sciences Stream begins in fall 2024. Pursuing a career as a doctor, nurse, physical therapist, dentist, physician assistant, pharmacist or other health care professional is a big goal. Alongside their Bachelor of Science degree, students will earn a unique certificate and get hands-on experience through paid co-op terms with some of the top hospitals, companies and research institutes in the region. The Health Sciences Stream is available to domestic students with the following admission categories: Life Sciences, Physical & Environmental Sciences and Psychology & Health Studies.
- High school students may now indicate their interest in the Management & Accounting + Master of Accounting & Finance Combined Degree Path (BBA + MAccFin).
- New joint program with Centennial College: Music Industry & Technology. Students will earn a Bachelor of Arts degree from UTSC and a certificate from Centennial College.
- Biological Chemistry re-named Medicinal & Biological Chemistry.

Program Changes

- Prerequisites for the Life Sciences are now SBI4U and one 4U math (SCH4U recommended). While not required for admission, to pursue a specialist in Biological Sciences or Neuroscience, students will need MCV4U.
